

Business Update

It's been a busy time in the Venture World and we wanted to give you a brief update on our journey since the [Sword Acquisition](#).

We are more active than ever, operating from offices in Aberdeen and London, with access to over 50 offices around the world through our parent company [Sword Group](#). As part of Sword UK, we have access to IT Support and Business Transformation skills that perfectly complement our dedicated Upstream Information Management knowledge.

We have specifically recruited a new Head of Consulting Gareth Smith, who is delivering real workable solutions with his team through Venture's Digital Innovation Hub. Give us a call to find out what this is all about...

Our Data Science team have attended hackathons and are starting to formalise how AI and Machine Learning helps answer the industry's data management challenges. Our team have had fascinating results and they can let you know more on the challenges we have solved.

Last year we recruited over 30 Consultants into the Venture family with key skills

including: Agile Project Management, Data Science, Machine Learning, Business Process Mapping, Production Data, Data and Business Analysis, GIS, User Support...

We are predicting to recruit at least another 30 Consultants this year. Check out our [LinkedIn page](#) for more information.

Watch out for new blogs from the Consulting Team coming soon.

Bye for now.
